

Drill Clean Holes Through Concrete, Asphalt and Frozen Ground

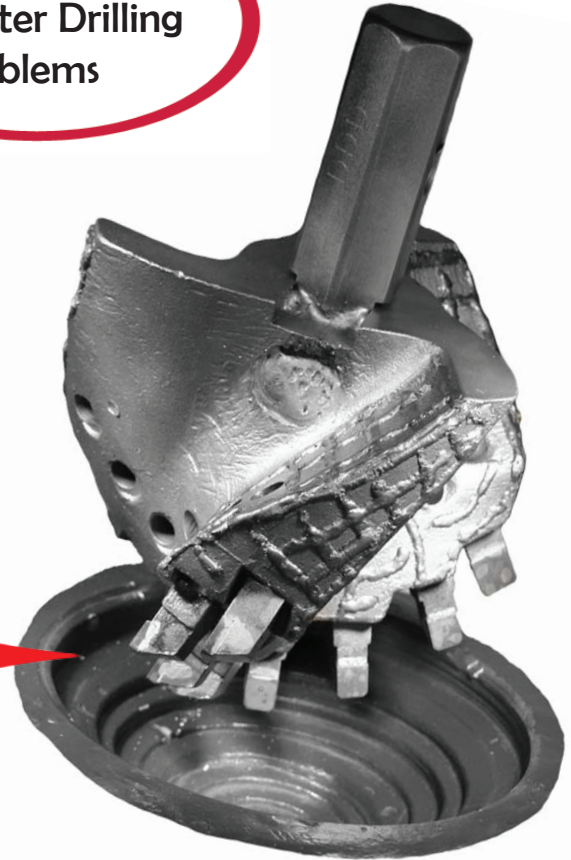

A Solution
to Winter Drilling
Problems

The DP Drill Head with DP bits is a 3-wing, prop-type drill head that can increase auger drilling rates by 50% or more in soft or medium formations.

Instead of tearing or gouging, the DP Drill Head shears off rock in a shaving action. This eliminates strain on bits and lengthens their effective service life. It also reduces weight needed for rapid penetration and resultant possibility of bits balling up.

Step Drilling Patern

The DP is precision manufactured to obtain maximum effectiveness from each cutting surface with minimum bit wear. This is accomplished by setting bits in a "step" Pattern so that each cuts only a small portion of the hole.

DP Drill Heads

| Part # | Hole Size | No. Bits per Head |
|--------|-----------|-------------------|
| DP4 | 4-1/2" | 5 |
| DP6 | 6-1/2" | 7 |
| DP8 | 9-1/2" | 11 |
| DP10 | 11" | 17 |
| DP12 | 12-1/2" | 17 |

Available hex and square shanks

1-1/8" hex, 1-5/8" hex, 2" hex, 1-3/4" square
Other shanks sizes available

Available API Pins

2-3/8" API, 2-7/8" API, 3-1/2" API
AWJ & NWJ - Other pin types available
